

Northwind Analytics - Remote Work Policy

Version 2.0 - Effective 1 March 2025

1. Purpose and scope

This policy describes how employees of Northwind Analytics may work remotely. It applies to all full-time and part-time employees who have completed their three-month probation period. Contractors and interns are covered by separate agreements and are not in scope.

The policy takes effect on 1 March 2025 and replaces the temporary guidelines issued in 2021. It is owned by the People Operations team and reviewed once a year, every January.

2. Eligibility and schedule

Eligible employees may work remotely up to three days per week. Tuesday is the company-wide anchor day: every team is expected to be in the office on Tuesdays so that cross-team meetings can be held in person. Teams may choose one additional anchor day of their own.

Core collaboration hours are 10:00 to 16:00 Central European Time. Outside these hours employees are free to organise their working day, provided they complete their contractual 38.5 hours per week.

Fully remote arrangements (five days per week) require written approval from both the direct manager and the department head, and are re-evaluated every six months.

3. Equipment and expenses

The company provides a laptop, a 27-inch monitor, a keyboard and a headset. In addition, each remote employee receives a one-time home office allowance of 400 euros for furniture, payable with the first salary after approval.

Internet costs are reimbursed up to 30 euros per month on presentation of an invoice. Electricity, rent and coffee are not reimbursable. Expense claims must be submitted within 60 days through the Finance portal; late claims are rejected automatically.

4. Security requirements

All remote work must be carried out over the corporate VPN. Multi-factor authentication is mandatory for email, the code repository and the data warehouse. Laptops lock automatically after five minutes of inactivity and their disks are encrypted.

Customer data classified as Restricted may never be stored on personal devices or printed at home. Lost or stolen equipment must be reported to the IT service desk within 24 hours at security@northwind-analytics.example.

Working from public networks such as cafes or airports is allowed only with the VPN active. Working from outside the European Union for more than 20 working days per calendar year requires prior approval from Legal because of tax and data-protection obligations.

5. Communication and availability

Remote employees keep their calendar up to date and set their status in the chat tool. Messages received during core hours should be answered within two hours. Meetings are recorded only with the consent of all participants, and recordings are deleted after 90 days.

Managers hold a one-to-one meeting with each remote team member at least every two weeks. Performance is evaluated on results, not on hours spent online.

6. Breaches and contact

Repeated failure to respect anchor days or security requirements may lead to the withdrawal of remote work privileges. Questions about this policy can be sent to people-ops@northwind-analytics.example.
